FARMERS MARKET SUPPORT PROGRAM

SHOPPING AT A FARMERS MARKET DURING COVID-19

FEELING SICK? STAY HOME PLEASE!

These are scary times for all of us. Help keep your farmers' market safe by staying home if you are feeling under the weather.

COME PREPARED

Check your Farmers' Market's facebook page or website to see what they are offering for the week, plan your purchases, and find updates about new rules and regulations. Oh, and don't forget your mask!

PAY ATTENTION

Look for signs and postings. Your market may have new rules in place, and possibly new directions for the flow of customer traffic through the market.

WASH AND SANITIZE

Your market will likely have hand washing and sanitizing stations set up upon entrance and throughout the market. It's always been common sense, but markets are trying to make it easier for you to do the right thing and wash your hands.

SHOP WITH YOUR EYES

During these times, avoid touching anything on a vendor's table. Tell the vendor which items you would like to purchase and let the vendor bag your items for you.

BE PATIENT

With new rules and regulations in place, it may take a bit longer for a vendor to complete your order, so please be patient and wait your turn. It's important that we all work together.

DON'T SOCIALIZE

Please complete your purchases and continue on your way. In order to stay safe, markets have to keep crowds down and create room for other customers. We know this is a hard one, but it's important.
